

CURB SHARES GAIN IN ACTIVE BUYING

Rally Continues After Selling Is Checked—Many Issues Advance.

BY JOHN A. CRONE.

Special Dispatch to The Star.

NEW YORK. October 22.—Continuing the rally in evidence at the close of the previous session, stocks on the curb today opened higher. The advance was under the leadership of utilities, industrials, investment trusts and aviation shares. A few of the big openings were Cities Service Company, 50,000 shares, \$19; or of L. B. Foster, Bond & Share, 15,000 shares, at 131, and General American Investment, 10,000 shares at 21 $\frac{1}{2}$, up over 1 $\frac{1}{2}$ points. Blocks of 5,000 shares frequently appeared at overnight gains.

Trading Is Heavy.

Cities Service moved up to 61 $\frac{1}{2}$ in the first half hour, but later reacted somewhat. Indiana Territory Illuminating Co., Cities Service's largest holding, opened up 4 $\frac{1}{2}$ or 5 $\frac{1}{2}$ points. Shortly thereafter it hit 39 $\frac{1}{2}$ and continued to move within a wide range.

Responding to an earnings report showing \$4.83 a share, partly profits from its recent acquisition of the company against 15 cents a share in the 12 months ended September, 1928, American Superpower opened higher and continued to advance in the forenoon, despite profit taking on each leg.

El Paso Oil Company showed some what before midday from its opening quotation. Associated Gas appeared initially at a decline approximately 2 points, but early headed higher. Electric Investors moved within a range of 5 points.

General Theaters and Fox A, both

hit hard in yesterday's session, were among the first industrials to improve.

Dow Chemical, old, was down a few points at the opening, while Great Atlantic & Pacific Tea and Tubular registered initial gains of more than 10 points.

Baltimore Markets

Special Dispatch to The Star.

Storage—Little demand for straw. Receipts generally ample. Wheat straw, No. 1 per ton, 9.00 $\frac{1}{2}$ a 100; oat straw, No. 1, per ton, 9.00 $\frac{1}{2}$ a 100.

TRUST CERTIFICATES OFFERED BY B. & O.

Special Dispatch to The Star.

BALTIMORE. October 22.—The Baltimore & Ohio Railroad is offering \$13,500,000 4 $\frac{1}{2}$ per cent equipment trust certificates through the Bankers' Co. of New York, the Continental Illinois Co. of Chicago, Evans, Illinois, and the Trust Company, annually in installments of \$900,000 from November 1, 1930, to November 1, 1944.

The electrical age was really ushered in with the electric lamp. Edison set the world, feverishly, to harness electricity to other uses, to furnish power for a life, but not for Edison. Even before he had, in co-operation with Frank L. Pope, invented the Universal stock ticker, still used for quoting stocks on the market, he had started to assist Sholes in building the first one way. Another big industry got under way.

But the electrical age was really established with the electric lamp. Edison set the world, feverishly, to harness electricity to other uses, to furnish power for a life, but not for Edison. Even before he had, in co-operation with Frank L. Pope, invented the Universal stock ticker, still used for quoting stocks on the market, he had started to assist Sholes in building the first one way. Another big industry got under way.

Edison invented the carbon telephone receiver. The Edison telephone preceded the incandescent lamp in two years. Another big industry got under way.

But the electrical age was really established with the electric lamp. Edison set the world, feverishly, to harness electricity to other uses, to furnish power for a life, but not for Edison. Even before he had, in co-operation with Frank L. Pope, invented the Universal stock ticker, still used for quoting stocks on the market, he had started to assist Sholes in building the first one way. Another big industry got under way.

Edison had many hardships. At times he was a comparatively poor man. But he had a few friends who backed him. So he kept on.

Today, at 82, the entire business, educational and scientific world stops to pay tribute to this living man, whose name will be linked in the ages to come with the half dozen great benefactors of the human race.

Four years ago Barron's Weekly offered prizes for the best suggestion for investing \$100,000 for a general buying plan on the Farm Board and its reference to loans on cotton and that sellers were reserved. They also reported a fair cloth inquiry from India, but complained that business with China was slow in developing.

Liverpool cables said the market there had been influenced by cotton and general buying on the Farm Board and its reference to loans on cotton and that sellers were reserved. They also reported a fair cloth inquiry from India, but complained that business with China was slow in developing.

“While American industries have increased their output 46.5 per cent and per capita productivity more than 53.5 per cent in the last 10 years, thousands of workers are still unable to get jobs,” says William Green, president of the American Federation of Labor.

“A Joyce, president of the Glidden Co. of Cleveland said today that several ‘conversations’ have been held with a view to merging with other companies, but that no definite plans have been formulated and that the Glidden Co. will continue as it has been

doing.”
